

Steve McDougall, Station Vice President Bruce B

As Station Vice-President, Bruce B, Steve leads the highly-skilled Bruce B team of operations and maintenance staff who run the station 24 hours a day, 365 days of the year.

Steve has worked on the Bruce site since 1981 when he joined Ontario Hydro. After initial assignment to the Douglas Point Nuclear Generating Station, Steve became Shift Superintendent at Bruce B. Steve also held a variety of leadership positions on site including Fuel Handling Manager, Human Resources Manager and Training Manager.

Steve has an Honours Degree in Electronic and Electrical Engineering from the University of Birmingham in the United Kingdom. Steve is also a **past** director of the University Network for Excellence in Nuclear Engineering.
